# ***STEED*** DUAL CAB

## **Built to work**

Great Wall Motors, the company that redefined value for money, is back. And we've brought a tough and reliable workhorse that has been built to work – the Great Wall Steed.

The Great Wall Steed Dual Cab Ute is set to become the new best friend for Australian tradesmen and framers, city or country with its rugged build quality, one-tonne payload and great value for money.

Don't let the tough exterior fool you, inside there's comfort features that would make the boss jealous. And we've improved safety levels, with six airbags and the latest Bosch Electronic Stability Program standard in all models.

Available in a choice of 4x2 petrol, 4x2 and 4x4 diesel, there's a Great Wall Steed that's right for you. The new Great Wall Steed – it just makes sense.

# Easy rider

From the outside, the Great Wall Steed is one tough workhorse. Step inside, however, and you're sitting comfortably in the saddle.

Every Great Wall Steed Dual Cab Ute comes standard with Comfort-Tek seats all round, including heated seats for the driver and front passenger.

The electric driver's seat and adjustable steering wheel combine to provide the perfect driving position, while the thoughtfully designed cabin ensures excellent visibility. Rain sensing wipers and auto headlights are standard.

Climate control air-conditioning means it's easy to find the optimum temperature setting and the six-speaker sound system with Bluetooth audio streaming can all be controlled from the leather steering wheel.

Other creature comforts include an electronic anti-glare rear view mirror, cruise control, multi-function trip computer, power windows all round and electric folding heated exterior mirrors.

Combined with supple double wishbone front suspension and easy steering, the new Great Wall Steed Dual Cab Ute provides a comfortable ride in all conditions.

**310Nm**

## Get the job done

With a choice of diesel or petrol engines and 4x2 or 4x4 drivetrains, there's a Great Wall Steed Dual Cab Ute designed to suit your needs.

With a genuine one-tonne payload, standard heavy duty tub liner and a two-tonne braked towing capacity, the Steed is no show pony.

The 2.0-litre turbo diesel engine is characterised by high efficiency, low fuel consumption and excellent performance.

With 110 kW of power and a user-friendly 310 Nm of torque on tap, this engine is designed to offer great performance and driveability. The diesel engine is matched to a smooth-shifting, six-speed manual transmission and available with 4x2 or 4x4 drivetrains.

The diesel 4x4 powertrain is linked to a BorgWarner Torque On Demand system to ensure maximum grip in all conditions. The driver can also select between 2WD, AWD and 4L settings with a push of a button.

The 2.4-litre petrol engine uses Delphi electronic ignition to deliver smooth performance for those customers who prefer a petrol engine. Delivering 100 kW and 205 Nm, the petrol engine Great Wall Steed Dual Cab Ute is available in 4x2 and matched to a five-speed manual transmission.

# Built strong. Built to protect.

Safety starts in the Great Wall Steed with a strong, robust frame, heavy gauge sheet metal and a cabin constructed using quality materials. Every exterior surface is manufactured with galvanised steel.

Autoliv front, side and curtain airbags – the choice of leading manufacturers around the globe – are standard in every Great Wall Steed Dual Cab Ute. Linked to sensors located around the vehicle to detect an accident, they can deploy faster than you can blink an eye.

Bosch Electronic Stability Program (ESP) is now standard on all Great Wall Steed Dual Cab Utes. ESP takes the advantages of anti-lock braking (ABS) and traction control system (TCS) and multiplies them both. Constantly working in the background, it monitors sensors located around the vehicle to keep the vehicle stable and safe. It actively works to avoid accidents before they occur.

The Great Wall Steed Dual Cab Ute also comes standard with rear parking sensors, adding to its long list of safety equipment.
